Ensure Equal Access to Programs and Services, 24/7

Between 1980 and 2020, the number of U.S. residents who spoke a language other than English at home nearly tripled to 67+ million. All levels of government responded to mandates to ensure meaningful access to services, but mandates rarely come with funding.

The lack of effective language access leads to disparities impacting public health, safety, justice, education, and civil rights. But there is an innovative, cost-effective way to serve the public better: partner with LanguageLine Solutions.

Our On-Demand Interpretation services connect you to 20,000+ professionally trained interpreters fluent in 240+ languages, including American Sign Language.
